

** BRAZIL. 9664.97, Aug 27 at 0622, R Voz Missionária, S9/+5 music, carrier mushy instead of sharp. Also sounded that way last night (Glenn Hauser, OK, WOR)

** BRAZIL. 11780, Aug 22 at 2157, RNA/RNB back on air after missing a few days (Glenn Hauser, OK, WOR)

** BRAZIL. 11780, Aug 23 at 2232, RNA/RNB again not off the air, jazz, S9+20/30 direct (Glenn Hauser, OK, WOR)

** BRAZIL. 11780, Aug 25 at 2158, no signal direct from RNA/RNB (Glenn Hauser, OK, WOR)

** BRAZIL. 11780, Aug 26 at 2157, RNB/RNA gone again, no signal direct. Aug 27 at 2159 it's on but weaker than usual, S9+10/20 and tough copy (Glenn Hauser, OK, WOR)

** BRAZIL. 28270+, Aug 27 at 2209, JBA beacon, dash and VVV PY4MAB, barely copied in multiple repeats, as in WGB list: ``28270.5 PY4MAB - Poços de Caldas MG BRA GG68re - #0/1/3 (07 Aug 2025) Note: VVV ID + grid + BCN + 5" carr - Cobra 142 gtl mod. ant vert 10w`` QRZ.com, with a huge photo gallery: ``PY4MAB Brazil flag Brazil, MAURICIO BERALDO, LUIZ ZANGIACOMI 145, POCOS DE CALDAS MG ZIP CODE 37704-274, MG, Brazil --- I have a Radio Beacon on the frequency of 28.270.4 CW, 24 hours a day, vertical antenna, 10 watts of power. In 2025 it will be 15 years since Beacon is on the air. Whoever receives the signals and sends me a confirmation by letter I will respond to everyone and send a special QSL card from my city`` Logged a few times before such as April 21 (Glenn Hauser, OK, WOR)

** CANADA. 990, Aug 23 at 0602 UT, Canadian news items, must be CBW coming in better than usual. I can't imagine any UStation emphasizing such news (Glenn Hauser, OK, WOR)

** CANADA. 28153 CW, Aug 22 at 2203, VE3IDS/B EN94, complete beacon message repeating, and about to conclude the OPOB, even OSOB, until I at 2206 detect another JBA CW on 28200. WGB list: ``28153.0 VE3IDS/B - Owen Sound ON CAN EN94ll - #0/2 (17 Apr 2025) Note: ID + grid + 10" off power 5w``. Would you believe that WGB lists *17* beacons on 28200? Only two in USA and one in Canada VE8. QRZ.com: ``VE3IDS Canada flag Canada, Don Richards, 137064 Conc 7, Owen Sound, ON N4K 5N5, Canada. 2024 June: I have put a 10 metre beacon on the air. It is on 28.153 at 5 watts to a 110' doublet at 40' AGL The rig is a radio shack htx 100. Please email reception reports to ve3ids.don@gmail.com 72/73, Don ve3ids`` Owen Sound is at the SW end of Georgian Bay (Glenn Hauser, OK, WOR)

** CANADA. 28153 CW, re my log of beacon VE3IDS/B: ``Hi Glenn, Thanks very much for the report. Yes ten metres has been pretty quiet this summer. I appreciate the reports to know that there are people searching for beacons. RBN is handy but a report from a human is better! I will be happy to snail mail you a QSL card. I have some mail to go to the post office on Monday. 73 Don ve3ids`` (Glenn Hauser, OK, WOR)

** CHINA [and non]. 11760, Aug 25 at 2210, JBA signal, presumably CRI Portuguese via Xianyang site, rather than Cubacarrier as in Aug 23 report. About which this reply:

``Hello Glenn, I suspect you had a Cuban carrier with CRI Xian underneath at 2200+ Z yesterday {Aug 23}. The carrier continued throughout the evening yesterday, gone before 0400 sometime {UT Aug 24}. The carrier was back on this afternoon {Aug 25} at 2025 Z check,

excellent level, then came to life with excellent quality Radio Rebelde audio at 2103Z, until abrupt plug pull at 2138*. 11760 audio was synchro with a very weak 5025 signal, which suggests that a second "RHC" tx at the Bauta site is now back in operation. 13780 RHC SPA was also on during the 2100+ period, very weak here. CRI came up on 11760 for the usual 2200 POR fill music program at good level with flutter, // 9685. And previously, I've never heard any Cuban CRI relays except through Quivicán, FWIW... 73. -- David E. Crawford, Indian River City, Florida Libre`` (Glenn Hauser, OK, WOR)

** COLOMBIA. 28465 USB, Aug 27 at 2218, Cartagena station making quick contacts in English, says this the last one for now, 10 watts. Only hit at DXheat/cluster: ``HJ4EAB 28 465,0 HJ4V Portable QRP 22:01 27/08/25`` But HJ4EAB is not in Cartagena per QRZ.com: ``HJ4EAB Colombia flag Colombia, EDUARD DARIO OLARTE VASQUEZ, MEDELLÍN, Colombia`` -- so how about HJ4V? Yes! HJ4V Colombia flag Colombia, EDUARD DARIO OLARTE VASQUEZ, Medellín 056432, Colombia -- During my vacation (August 26–30 2025), I will be operating as HJ4V from the beach in Cartagena Colombia, on the 10m and 40m bands SSB`` (Glenn Hauser, OK, WOR)

** CUBA [and non]. 750, Aug 26 at 0704, whooper audible under WSB; not often, and right now not heard on 870, 1040 or anywhere else. Only Cuban listed in WRTH is R. Progreso, 10 kW, in Palmira, Cienfuegos (Glenn Hauser, OK, WOR)

** CUBA [and non]. 1141 kHz, Aug 27 at 0403, JBA carrier hetting 1140 Spanish, presumably Cuba vs XEMR on N/S antenna, while on E/W antenna English, WRVA? (Glenn Hauser, OK, WOR)

** CUBA. 15230, Aug 22 at 2210, RHC S9+20 of dead air, maybe a trace of modulation, while 13780 is OFF. Something's always wrong at RHC (Glenn Hauser, OK, WOR)

** CUBA. 9790, Aug 24 at 0703, S9+30 of open carrier/dead air. Bigsig has got to be transmitter relaying CRI scheduled 0300–0500 only in English, Cantonese, but missing a lot lately. Something's always wrong at RadioCuba (Glenn Hauser, OK, WOR)

** CUBA. 11760, Aug 23 at 2233, RHC #1 legacy frequency finally back on air after long absence -- but with JBM Chinese music! Instrumental only but not Firedrake. RadioCuba didn't used to relay CRI at this hour. This is so strong, S9+20/30, that it's got to be Cuba rather than China itself, also scheduled on 11760 this hour in ``Portuguese`` to Europe via Xi'an. At 2257, 11760 goes to dead air but still on air past 2301; while:

13650, Aug 23 at 2259, RadioCuba on with open carrier, 2300 CRI theme, Chinese & Portuguese IDs, for the traditional hour of fill music.

13780, Aug 23 at 2233, RHC in Spanish, S9+20 with good modulation, running about 2 seconds behind // 15230 which is S9+10/20 and suptorted. 15230 is off by 2259: maybe moved to 13650 but not with same defect. Anyhow it appears RHC is now capable of running 3 transmitters at once!

All those as monitored direct; into Georgia SDR at 2313, 11760 deadair, 13650 CC music, 13780 SS & music, 15230 off (Glenn Hauser, OK, WOR)

** CUBA. 15230, Aug 25 at 2203, RHC S7/S9 but suptorted unreadable; also S9+30 and clear on 13780 in Spanish, seems not // until I compare music breaks vs talk, showing they are a few sex out of sync. Something's always wrong at RHC (Glenn Hauser, OK, WOR)

** CUBA. 11760, Aug 26 at 0633, Spanish S9+30, as RHC frequencies/transmitters are being revived, but at this hour? Suspect it's R. Rebelde programming and does seem // MW 1620 under QRM, can't tell about 5025 which remains a JBA carrier. Then at 0634, R. Rebelde ID, and also an old yelled ID presumably dating from its early clandestine era (Glenn Hauser, OK, WOR)

** CUBA. 11760 & 15230, Aug 26 at 1508, JBA carriers presumably RHC, no signal on 13780. And another update from David Crawford:

`11760 was noted this morning, 26 AUG, 1310 Z open carrier, 1320 very faint audio, then up to readable but low modulation by 1325, carrying RHC SPA. 1406 the audio was dialed back down, still open carrier at 1530 recheck, then was gone at 1758 recheck. Excellent signal level and audio quality.

The interesting thing: The 11760 RHC audio was exactly synchro with the known old Quivicán tx on 6000 up to its sign-off at 1400. 13780 had the typical Bauta ~0.7 sec audio delay behind Quiv. Also, as previously reported, the 11760 Rebelde relay the evening prior was synchronized with the "weak 5025" Rebelde tx.

Two conclusions: 11760 appears to be a new or very-well-repaired transmitter at Quivicán, not the historical Bauta 11760. And the low power 5025 Rebelde tx is likewise located at Quivicán.` (Glenn Hauser, OK, WOR) See also CHINA [and non]

** CUBA. 13780, Aug 26 at 2205, RHC Spanish S9/+10 with good mod; JBA carrier on 15230, trace? of mod? Not on 11760, just China JBA direct with flutter (Glenn Hauser, OK, WOR)

** CUBA. 15230, Aug 27 at 1457, RHC S7/S8 but suptorted, unreadable. Clear but weaker on 13780 JBA S6/S7. And not on 11760 (Glenn Hauser, OK, WOR)

** CUBA. 15230, Aug 27 at 2213, RHC suptorted, unreadable not on 13780 or 11760. Something's always wrong at RHC (Glenn Hauser, OK, WOR)

** EAST TURKISTAN [non]. `Table for All with Buki Elegbede` is a show on createtv.com via OETA-3 that I don't make a point of watching as there are far too many ethnic food shows I am never going to have a chance to taste, but happened to notice about 2245 UT August 22, it's all about UIGHUR GENOCIDE! Apparently the first half was about Ukraine. I find it:
<https://www.tpt.org/table-for-all-with-buki-elegbede/video/conflicts-community-4yWj2k/>
The host pronounces it ``Oi-ghur`` as if were German rather than ``Wee-ghur`` - which is correct? (Glenn Hauser, OK, WOR)

{this is why I refuse to accept ChiCom hegemony over East Turkistan!!}

** FINLAND [non]. 9500, Aug 23 at 1900, Radio Love Warbler supposed to play again after two-week break, via Woofferton, but NO SHOW, tsk2. By 2000, 9500 is infested by OTH radar.
Another try in 2 weeks? See Full details:
<https://www.creativefolkestone.org.uk/artists/hanna-tuulikki/>

At 1956, almost over, Alexander Miatlikov discovers it's on 9550 instead! (Glenn Hauser, OK, WOR)

** GERMANY. 6160 & 3975, Aug 23 at 1800, R. Titanic International, via SW Gold Radio, Germany, former pirate returns to celebrate its 50th anniversary. Good S9+10/20 reception of both into DL7APJ remote. I listen to the first 15 minutes, starting mostly English, after 1808 mostly German. 1814 mentions Pink Floyd. Continuous music, but also almost continuous chatter as the ex-DJs are enjoying being on the air

again; rather breakneck pace, tiring for the listener, and one cannot really appreciate the music. 1839 mentions Mark Brown/Braun?, station founder. 1856 wrapping up first hour saying some different languages are coming up; it's to last 6 hours total. More info here:
<https://www.shortwaveradio.de/en/Titanic>
(Glenn Hauser, OK, WOR)

** MEXICO [and non]. Re: "UNIDENTIFIED. 630.1 kHz, Aug 26 at 0703 UT, JBA carrier hetting 630.0 gospel huxter, KYFI St. Louis MO (Glenn Hauser, OK, WOR)"

``I had this on several of my Border Inn DXpedition recordings last October, and could only determine that it was a Mexican station (because they played the anthem around 1200 UT). This morning I finally found it again on the Brownsville TX SDR, after several previous failed attempts. It's XEFB Monterrey NL, on about 630.090 kHz, just as in my October 2024 recordings.

They ran a children's choral version of the anthem (1 verse), and one quick "Acústika" liner, then returned to music. They were NOT //XEJP-1150, which was also audible on this SDR at the same time. XEFB's anthem was almost two minutes behind XEJP's (XEJP's finished right about 1200 UT, and XEFB's started slightly after 1200 UT). After XEJP's anthem, they went into the Acústik program "Agronegocios" ("Farm Business?" Seems an odd programming choice for morning drive time in Mexico City). We already knew that both XEFB-630 and XEUNO-1120 (which may currently be silent) were running music instead of the actual Acústik network programming, but it's interesting to learn that they (well, at least XEFB) still bother to refer to themselves as "Acústika."

(It never fails - as soon as we publish the IRCA Mexican Log, something newsworthy happens a day or two later that I wish I could have included in the Log)... On the subject of off-frequency stations on 630, is KH0W also still running high, around 630.019, as they were in all of my October 2024 recordings? 73 Tim Hall``

``Hey Tim! The bane of all list keepers! The day it goes to press is the day it's out of date! 73 Wayne Heinen N0POH, Editor, NRC AM Radio Log, Aurora, CO``

XEFB is better? known as call of the once widely DXed TV channel 3/2 in Monterrey (via Glenn Hauser, WOR)

** NEW ZEALAND. 10126 CW, Aug 22 at 0533, CQ DE ZL3XDJ, over and over, tough time copying call due to weak signal and fading. I was never quite certain of the D, and at first I thought it started ZD+ which would be very interesting DX, but by 16 UT I find him on DXheat/cluster, altho several other dates and times and on 10125. I noticed him tonight as +1 kHz from 10125 HK3QQ with his corrupt keyboard loops. No VK phones. QRZ.com:

``ZL3XDJ New Zealand flag New Zealand, BRIAN zl3xdj, south island, New Zealand --- My name is Brian, a citizen of ZL and 73 years old, lic 1985 as G4XDJ, in Billingham, north east coast, now living in the south island of New Zealand for 20 years, and as you can see by the pictures below, it's a very special place. I am a retired carpenter, now caring for my wife Barbara "barbs", who has multiple sclerosis, and cannot walk, but always smiles.`` So neither surname nor exact location revealed (Glenn Hauser, OK, WOR)

** NEW ZEALAND. Re my 10126 log last time, ZL3XDJ: ``Hi Glenn, Brian Fields, Waikouaiti Beach (just north of Dunedin) I think, based on the photo and email on his QRZ.com page. With all the recent fuss about how wonderful ChatGPT is I uploaded his location photo and asked it

"Where is this?". Took four guesses before it got it right. so don't believe every first answer from AI. Cheers, Chris Mackerell, NZ``
(Glenn Hauser, OK, WOR)

** NORTH AMERICA. 7475 AM, Aug 22 at 0635, the thin voice of Josiah on anti-Christ pirate, Station YHWH, S6/S8 direct, on late (Glenn Hauser, OK, WOR)

** OKLAHOMA. 1210 kHz, Aug 25 at 0606 UT, local weather forecast of Monday's high 101, then KGYN ID, `Red Eye Radio` -- NWS says high of 77! as the heatwave has now broken. KGYN must be airing long-outdated wx info! At least a week old. Don't you believe KGYN either with far-right nonsense on RER. And of course if I'm hearing it, not on DA pattern protecting WPHT. Somethings goofed-up in Guymon (Glenn Hauser, OK, WOR)

** OKLAHOMA. 1390, Aug 24 at 0312, KCRC Enid dead air pinning the needle S9+70? still dead past 0455+. I've left a radio on with volume up to hear if and when it resume. Which it does, finally, blasting on at 0500 sharp. Substation 1640 KZLS was also DA only S9+45 atop CCI. But by 0639 next check, 1390 & 1640 are deadair again, and *0700 they blast back on with baseball info; 1640 as usual is about 2 seconds behind 1390 (Glenn Hauser, OK, WOR)

** OKLAHOMA. 1680, Aug 20 circa 1945, still pop music, presumed Virtual DJ Radio low-power relay. It's always there whenever I be near enough roughly once a week (Glenn Hauser, Enid, WOR) Corrextion: I originally typed ``DX Radio``!

** OKLAHOMA. 1680, Aug 27 circa 1930 UT, Virtual DJ Radio still running pop music and audible for only a few blox around crossroads of US 81 & US 412 in Enid; self-promotion calls itself a ``radio station``, but no specific ID recaught. Has anyone else, anywhere ever heard VDJR on a real radio transmitter, AM or FM? (Glenn Hauser, Enid, WOR)

** OKLAHOMA. 90.1, UT Sat Aug 23 as I am FM DXing, at 0108 I notice that KUCO is carrying a BBC Prom Concert, introducing UK premiere of Antony Davis` ``Tales of the Signifying Monkey``, to be followed by something slightly more familiar, Strauß` ``Till Eulenspiegel`s Merry Pranx``. 0141 outro as on Symphony Cast, and available for a ltd time at [yourclassical.org/symphonycast](https://www.yourclassical.org/symphonycast) -- here it is, the entire 2-hour broadcast:
<https://www.yourclassical.org/episode/2025/08/18/symphonycast-bbc-symphony-orchestra>
(Glenn Hauser, OK, WOR)

** OKLAHOMA. 92.1, Aug 24 at 2104 UT, ``Oklahoma City`s sports radio, 105.3 FM`` -- but this is a translator of KRMP 1140 as in WTFDA FMDB: K221FQ KRMP-1140 92.1 OKLAHOMA CITY OK 0.099 0.099 0.0 0.0 35-32-58 97-29-49 3E2B OKC'S HEART AND SOUL 92.1 460-1140 No Program Type or Undefined URBAN AC 77231

However, 105.3 is:
KINB 105.3 KINGFISHER OK 0.93 0.93 254.0 254.0 35-43-38 97-52-30 2673
KINB CBS SPORTS RADIO 105.3 KINBFM.COM 405-600-9096 SPORTS 88376

Radio-locator confirms both are owned by Perry -- so maybe cross-promotion, but they could have changed inputs.

I was bandscanning for possible sporadic E, maybe Mexico; only other item of note was dead air in mono fading on 91.5, seemingly atop KSNS in Kansas (Glenn Hauser, Enid, WOR)

** ROMANIA. 9740, Aug 26 at 2209, RRI English at S9/+10; reception improving but still insuff intended for W Europe only (Glenn Hauser,

OK, WOR)

** SPAIN. 15520, Aug 21 at 1858, this REE frequency for ME is back on air after several days missing, but 15500 for N America is still gone; 15390 also JBA carrier; and 17715 for S America S6/S8. Conditions not so good, but SAm in NAM is still sufficient. Same situation at 1940 into UTwente. In Spanish of course. Question is whether English may appear Friday at 2200 (Glenn Hauser, OK, WORLD OF RADIO 2309)

** SPAIN. 17715, Fri Aug 22 at 2157, REE rock music, Spanish, VG S9+20/30 direct despite S American aiming, also on JBA 15390 while 15500 & 15520 are still AWOL. Checking now as there were conflicting reports whether English would resume today at 2200? NO, continues in Spanish about, what else? Taiwán! Reminding me that we can hear RTI itself in Spanish at the very same time via 15770 WRMI (Glenn Hauser, OK, WOR)

** SPAIN. 15500, Sat Aug 23 at 2248, REE to NAm is still OFF, but the other three are on in Spanish about Panamá: 17715 S9+20/30 > 15520 > 15390 (Glenn Hauser, OK, WOR)

** SPAIN. 17715 S9+20 and much weaker 15390, Mon Aug 25 at 2159, these REEs are on while 15500 & 15520 are OFF; still no English at 2200, rather Spanish about Cambuya = Cambodia, what else? Some dispute about whether to spell it Camboya in Spanish. Something's nonsensical at Noblejas, messedup in Madrid (Glenn Hauser, OK, WOR)

** SPAIN. 15500 & 15520, Aug 26 at 2159, no signals direct from REE, but audible on 15390 and S9+20/30 on 17715, 2200 accurate timesignal and Emisión Sefarad, still on Tuesdays, but what happens next week/month? (Glenn Hauser, OK, WOR)

** SPAIN. 17715 S9+20/30 & VP 15390, Wed Aug 27 at 2200, REE on these but not on 15500 or 15520, timesignal and Spanish, `Españoles en el Exterior`, something about arroz = rice. As expected, no English when it used to air. One week from today, English will supposedly resume at inconvenient hour of 1000 UT on frequency unknown (Glenn Hauser, OK, WOR)

** TURKEY. 11785.009+, Aug 22 at 2157, no signal from VOT, so I check SPAIN et al., but at 2213 recheck I discover it's on, S9+20/30 direct with jazz, and this time in English with `Travelogue`, M announcer first-person account of visiting some other places starting from Gaziantep. At 2222 into UTwente when measured, S9+55! YL about the Qashqai minority in Iran being discriminated against because they are Turkic, 2229 outro as `The Pulse of Turkish Foreign Policy`. Look them up at Wikipedia. 2230 ``with-you-every-hour`` promo followed immediately by ``always by-your-side``. 2231 `Did You Know That?` voiced by Efsun, something about chickpeas in Anatolia. 2235 ``with-you-every-hour`` again, music. 2236 ``WYEH`` AGAIN already, music. 2252 ``ABYS`` again, what crutches! 2253 s/off as if 1230 on 17620; something's always awry in Ankara, IS to 2255* (Glenn Hauser, OK, WOR)

** TURKEY. 11785+, Aug 23 at 2232, VOT not off the air and furthermore in correct language, English, S9+20/30, best signal direct in a while. At 2250 music has increased to S9+30/40. 2252 s/off as if it's 17620 at 1230, awry at Ankara, and IS to 2253.7* chop (Glenn Hauser, OK, WOR)

** TURKEY. 9750.008-, Sun Aug 24 at 1900, S9+40/50 into UTwente, VOT English with `Letterbox`. It's almost 20 minutes long, 6 people called but lengthy quotations from reports, and lengthy effusively friendly replies; now with a bell-melody between them. 1) Christer Brunström, Sweden, hard to understand names, passed on his comments on Turkish

politix. 2) Lela? Bell, Mr or Ms?, Netherlands, via UTwente, longtime listener, firsttime writer. 3) Andrey Martinyuk?, Moscow, Russia. 4) Mr Mohammed Breyel?, Malaysia. 5) Harald Suess, Austria, who heard Istanbul 99.6 FM in car. 6) Michael Linder?, Germany, heard Persian. Cemre wraps up at 1919, theme to 1920 (Glenn Hauser, OK, WOR)

** TURKEY [non]. 11785+, Aug 25 at 2158, no signal direct from VOT. Something's always erroneous at Emirler; nor at 2240 into UTwente, when also checked accidental alternate 9875: not there either, only weak off-frequency-minus signal, no doubt Korea North (Glenn Hauser, OK, WOR)

** TURKEY. 11785.010-, Aug 26 at 2157, no signal direct from VOT; but on by next check 2206, in English; and at 2241 into UTwente when measured, music at S9+35/45; 2246 ``always-by-your-side`` promo (Glenn Hauser, OK, WOR)

** TURKEY. 13635, Aug 27 at 0630, Turkish music, SS0B S7/S9, now the SS0B, scheduled 06-13 250 kW 310 degrees to WEu and thisaway, VOT Turkish. Always audible but improving now, Followed by 17815 same parameters at 13-16, heard about 1503 (Glenn Hauser, OK, WOR)

** TURKEY. 11785.004-, Aug 27 at 2158, VOT not off the air, S9/+10 IS and IDs in English. At 2229 into UTwente when measured, S9+40/50, ``always-by-your-side`` promo, music. 2238 ``ABYS`` again, music. 2243 TRTVOTWorld.com promo, music. 2251 multi-lingual ID filler reel. 2254 s/off as if 17620 at 1230. Something's always awry at Ankara. 2254.5 IS to 2255.4* (Glenn Hauser, OK, WOR)

** UKOGBANI. 5870-5875-5880, Aug 22 at 0548, DRM noise S9. EiBi shows BBC in English via Woofferton at 0459-0600 for Central Europe (Glenn Hauser, OK, WOR)

** UKOGBANI. 21535-21540-21545, Aug 22 at 1530, DRM noise. Aoki & EiBi show BBC English via Woofferton at 1458-1600 for S Asia (Glenn Hauser, OK, WOR)

** U S A. LW/MW bandscan Aug 24 from 0643 UT hits these JBA carriers or with JBA MCW IDs, besides some of the `regulars`, skipped:
272, LU?, Lubbock TX closest of 8 in USA & Canada, none familiar
326, MA, Midland TX
329, PMV, PlattsMouth NE
338, RYN?, Tucson/RyAn AZ
344, JL?, Joplin MO, closest of several
346, YXL, with dash, Sioux Lookout ON
353, LI? Little Rock AR
379, RU? Russellville AR
392, FMZ, Fairmont/Beklof NE
419, GB?, Great Bend KS, only one other, in GA. Never got a GB ID (Glenn Hauser, OK, WOR)

** U S A. 15016 USB, Aug 21 at 1452, a crypto message is airing, may have missed a few characters at start? Figured it would be repeated, but not: SELDRHQXUM2ZCZK3Q54G7STJ3J3SAZE ``This is Flyball .. disregard this transmission. This is Flyball, Out`` to 1454* Never mind (Glenn Hauser, OK, WOR)

** U S A. GREENVILLE BEING RE-STAFFED: ``Glenn, I was informed this morning that all of the staff including office and the janitor have been called back to work in Greenville. I will have more info tomorrow. Glenn`` Swiderski, Aug 24 (Glenn Hauser, OK, WOR)

** U S A. Office of Cuba Broadcasting saving Greenville station: From usually reliable sources: "Staff is being called back to Greenville, and reportedly will be put back into normal operation. Greenville is

OCB owned now, allegedly because management thought OCB would have its budget cut and have to turn it off and Washington management would not be held responsible." (via Glenn Hauser, WOR)

** U S A [and non]. WORLD OF RADIO 2308 monitoring: confirmed UT Thursday August 21 at 0130 on WRMI 5010, S7/S8 and noisy into Knoxville SDR.

WORLD OF RADIO 2309 contents: Alaska, Australia, Bonaire, Brazil, Canada, Cuba and non, Denmark, (Ecuador non), East Turkistan, Finland, Germany, India, Indonesia, International Vacuum and non, Laos, (Madagascar), Netherlands, North America, Romania, Russia, Spain, Sudan non, Turkey, (UK), USA, Vanuatu, Vatican and non; unID 1450; propagation outlook - (countries mentioned along with others not in order)

0030 UT Wednesday WRMI 9395 to NNW;
1930 UT Wednesday SW Radio, Germany 3975 & 6160;
2100 UT Wednesday WBCQ 7490v to WSW;
2330 UT Wednesday WRMI 9395 to NNW;
0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 6160.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2309 monitoring: confirmed Friday August 22 at 2030 on IRRS SW via AM Italia, 1322.994+, S7/S8 into UTwente across Europe. Also on WRMI webcast only, while 9955 is off the air, unlike yesterday when it was on at 1908, 1933 and 1939 chex but with CRR.

Also confirmed Friday August 22 at 2200 on WRMI 9955, S9+10/20 direct but noisy and seems undermodulated.

Also confirmed Friday August 22 at 2239 the 2230 on SW Gold Radio, Germany, 3975.001-, S9+5/15 into UTwente. Next:

{UT Sat Aug 23 at 0128 I find that 5085 WTW is OFF, and so is 5920. By 0155, 5920 is back on but not 5085 - who knows what will happen at 0300? George does, tells me at 0215 that the 5085 transmitter is down again awaiting someone from Continental; and last week WOR was cut short because the operator forgot to leave the transmitter on another half-hour}

0300 UT Saturday WTW 5085 [not tonight];
0930 UT Saturday WRMI 7570 to NW;
1430 UT Saturday SW Radio, Germany 6160;
1730 UT Saturday SW Radio, Germany 3975 & 6160;
1930vUT Saturday WA0RCR 1860-AM [1900/2100];
2100 UT Saturday WRMI 9395 to NNW;
2230 UT Saturday WRMI 15770 to NE;
2300 UT Saturday WTW 9475 [suspended];
0230vUT Sunday WA0RCR 1860-AM [nominal 0315; as late as 0400];
1900 UT Sunday IRRS SW via AM Italia 1323 and/or 918;

2100 UT Sunday WRMI 15770 to NE;
2130 UT Sunday SW Radio, Germany 3975 & 6160;
2300 UT Sunday WRMI 9395 to NNW [new];
2330 UT Sunday WRMI 9455 to NW;
0030 UT Monday WRMI 7780 to SW;
0830 UT Monday SW Radio, Germany 6160 [suspended];
1930 UT Monday SW Radio, Germany 3975 & 6160;
0330 UT Tuesday WRMI 7780 to SW;
1300 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
1400 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
2000 UT Tuesday IRRS SW via AM Italia 1323 and/or 918;
2330 UT Tuesday SW Radio, Germany 3975;
0030 UT Wednesday WRMI 9395 to NNW;
1930 UT Wednesday SW Radio, Germany 3975 & 6160;
2100 UT Wednesday WBCQ 7490v to WSW;
2330 UT Wednesday WRMI 9395 to NNW;
0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 6160.
(Glenn Hauser, OK, WOR)

** U S A. WORLD OF RADIO 2309 monitoring: as expected, no signal from
WTWW 5085, UT Sat Aug 23 at 0300. We can only hope it will be back up
by next week.

Confirmed Saturday August 23 at 1449 the 1430 on SW Gold Radio,
Germany, 6160.001+, S9+5 into UTwente.

Also confirmed Saturday August 23 at 1600 on WRN North America
stream.

Also confirmed Saturday August 23 at 1735 the 1730 on SW Gold Radio,
Germany, 6160.000 S9+10 and 3975.001+ S9 into UTwente.

``Dear Glenn, waiting for the 50th anniversary and farewell broadcast
of Radio Titanic International, I happened to catch the final items of
your World of Radio programme via Shortwave Radio. First, the standard
sentence of praise: Thank you for still covering the more important
short wave news for us.
250823 6160.0 1755 2308 D Shortwave Gold, Winsen. E, World of Radio //
3975. 34433 HJBi (Dr Hansjoerg Biener)``

Confirmed Saturday August 23 after 1930 on WRN North America stream,
and still NOT on WRMI.

Unconfirmable Sat Aug 23 at 1930v on WA0RCR, 1860 AM, M0, as usual the
three closest SDRs cannot get a signal in the daytime. Next:

2100 UT Saturday WRMI 9395 to NNW;
2230 UT Saturday WRMI 15770 to NE;
2300 UT Saturday WTWW 9475 [suspended];
0230vUT Sunday WA0RCR 1860-AM [nominal 0315; as late as 0400];
1900 UT Sunday IRRS SW via AM Italia 1323 and/or 918;
2100 UT Sunday WRMI 15770 to NE;
2130 UT Sunday SW Radio, Germany 3975 & 6160;
2300 UT Sunday WRMI 9395 to NNW [new];
2330 UT Sunday WRMI 9455 to NW;
0030 UT Monday WRMI 7780 to SW;
0830 UT Monday SW Radio, Germany 6160 [suspended];
1930 UT Monday SW Radio, Germany 3975 & 6160;
0330 UT Tuesday WRMI 7780 to SW;
1300 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
1400 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
2000 UT Tuesday IRRS SW via AM Italia 1323 and/or 918;
2330 UT Tuesday SW Radio, Germany 3975;
0030 UT Wednesday WRMI 9395 to NNW;

1930 UT Wednesday SW Radio, Germany 3975 & 6160;
2100 UT Wednesday WBCQ 7490v to WSW;
2330 UT Wednesday WRMI 9395 to NNW;
0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 6160.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2309 monitoring: not confirmed Saturday August 23 at 2100 on WRMI 9395 because it's OFF the air (and so is 9455 but 9955 is well audible), all checked at Georgia SDR.

Confirmed Saturday August 23 at 2230 on WRMI 15770, S9+20/30 direct and VG modulation. Weakening somewhat by 2256.

Also confirmed UT Sunday August 24 from 0308 to 0337 on WA0RCR, 1860 AM, M0, S9+20/40 direct above noise level S9; also audible into Athens GA SDR but some storm crashes, 859 km = 534 statute miles away. Ron Trotto was also listening on 1860 in IL.

Also confirmed Sunday August 24 at 1920 the 1900 on IRRS SW via AM Italia, 1322.994+, S9 into UTwente. Next:

2100 UT Sunday WRMI 15770 to NE;
2130 UT Sunday SW Radio, Germany 3975 & 6160;
2300 UT Sunday WRMI 9395 to NNW [new];
2330 UT Sunday WRMI 9455 to NW;
0030 UT Monday WRMI 7780 to SW;
0830 UT Monday SW Radio, Germany 6160 [suspended];
1930 UT Monday SW Radio, Germany 3975 & 6160;
0330 UT Tuesday WRMI 7780 to SW;
1300 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
1400 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
2000 UT Tuesday IRRS SW via AM Italia 1323 and/or 918;
2330 UT Tuesday SW Radio, Germany 3975;
0030 UT Wednesday WRMI 9395 to NNW;
1930 UT Wednesday SW Radio, Germany 3975 & 6160;
2100 UT Wednesday WBCQ 7490v to WSW;
2330 UT Wednesday WRMI 9395 to NNW;
0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 6160.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2309 monitoring: confirmed Sunday August 24 at 2113 the 2100 on WRMI 15770, S9+5/15 into UTwente where it's aimed.

Confirmed Sunday August 24 at 2157 the 2130 on SW Gold Radio, Germany, 3975.001 S9/+5 and 6160.002- S9+10/15 into UTwente.

NOT confirmed Sun Aug 24 at 2300 on WRMI 9395, as that transmitter is still OFF, altho 9455 & 9955 are on well.

Confirmed Sunday August 24 at 2330 on WRMI 9475, S7/9+10 into Georgia SDR.

Confirmed UT Monday August 25 at 0030 on WRMI 7780, S9+5/22 into S Texas SDR.

NOT confirmed UT Mon Aug 25 circa 0300 on Area 51 webcast only. WBCQ 5130 -84 Hz = 5129.916 signed off at 0300 but webcast continued with something else: Natasha Femkin loves Marion's Attic, mentions www.recordrama.com? and Magic Radio; 0318 mentions 7.415 MHz so it's a *very* old show, but webcast music is in stereo. 0336 still something else on A51. Another check of webcast at 0416 finds WOR playing now, about 17 minutes into, so must have started an hour late circa 0359.

Next:

1930 UT Monday SW Radio, Germany 3975 & 6160;
0330 UT Tuesday WRMI 7780 to SW;
1300 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
1400 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
2000 UT Tuesday IRRS SW via AM Italia 1323 and/or 918;
2330 UT Tuesday SW Radio, Germany 3975;
0030 UT Wednesday WRMI 9395 to NNW;
1930 UT Wednesday SW Radio, Germany 3975 & 6160;
2100 UT Wednesday WBCQ 7490v to WSW;
2330 UT Wednesday WRMI 9395 to NNW;
0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 6160.
(Glenn Hauser, OK, WOR)

** U S A. WORLD OF RADIO 2309 monitoring: Correxion: I wrote 9475 instead of 9455 about this, fixed:
Confirmed Sunday August 24 at 2330 on WRMI 9455, S7/9+10 into Georgia SDR.

9395, Aug 25 at 2208, this WRMI is back on unlike yesterday. We can only hope it will continue at further scheduled WORLD OF RADIO times.

Confirmed UT Tuesday August 26 at 0330 on WRMI 7780, S9+10/20 into Durango2 SDR.

Confirmed Tuesday August 26 at 1300 on WRMI 9955, S4/S6 direct.

Also confirmed Tuesday Auguts 26 at 1425 the 1400 on WRMI 9955. Next:

2000 UT Tuesday IRRS SW via AM Italia 1323 and/or 918;
2330 UT Tuesday SW Radio, Germany 3975;
0030 UT Wednesday WRMI 9395 to NNW;
1930 UT Wednesday SW Radio, Germany 3975 & 6160;
2100 UT Wednesday WBCQ 7490v to WSW;
2330 UT Wednesday WRMI 9395 to NNW;
0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 6160.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2309 monitoring: confirmed Tuesday August 26 at 2000 on IRRS SW via AM Italia, 1332.994, S9+5 into UTwente across Europe.

Also confirmed Tuesday August 26 at 2330 on SW Gold Radio, Germany, 3975.002+, S9+10/20 into UTwente.

Also confirmed UT Wednesday August 27 at 0030 on WRMI 9395, S9+15/20 into Knoxville SDR; following Blues Radio International, and ``Okeechobee Ocean`` ID - I've been craving to hear that entire song, and here it is:
<https://youtu.be/8uhB9Buxifg>
<https://www.lyricsvault.net/php/artist.php?s=181180>

Also confirmed Wednesday August 27 at 1931 on SW Gold Radio, Germany, 6160.000+, S9+10/20, by recording and presumably also on 3974.999+, which was S9/+15 by 2005, both into UTwente.

Also confirmed Wednesday August 27 at 2100 on WBCQ, 7490 -70 Hz = 7489.930, S9/+15 following TOMBS chopped off at 2100 for ID, then WOR.

Also confirmed Wednesday August 27 at 2330 on WRMI, 9395, S9+10/20 into Knoxville SDR. Next:

0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 6160.

Thanks this week for financial support from Peter Robinson, UK, for a very generous contribution not originally in US funds via PayPal to woradio at yahoo.com

One may also contribute via money order or check on a US bank to:
Glenn Hauser, P O Box 1684, Enid OK 73702
(Glenn Hauser, OK, WOR)

** U S A. 9905/9955, Aug 27 at 2212, approx. range of modsqueals out of screaming TOMBS on 9930 WTWW where he's S9+40/50. Similar situation around blasting 9350 WWCW (Glenn Hauser, OK, WOR)

** U S A. Pre-`AAAWWW` chex pf WBCQs, Aug 22 at 2355: 3265 & 5130 OFF; 6160 IS & ID loop JBA S5/S6 into Maryland SDR. 7490 S9+10/15 with FKB. 9330 off, for rotation. 2359, tone on 7490, one-minute warning to FKB to wrap up his live show.

UT Sat Aug 23 at 0000, 7490 advisory that following originally aired Feb 21, 2025 - as I already reported then, q.v., and never mind now. Also on resumed 9330. Except checking exact frequencies, NA5B remote is out of calibration showing 10000.000 WWV as -45 Hz! So with that correction it puts WBCQ on 6159.944, and 7489.940 (Glenn Hauser, OK, WOR)

** U S A. 9330, Aug 26 at 2207, NO signal from WBCQ WLCR; what's wrong? Even when on to Brasil, no comparison at this angle, to much weaker-rated WWCW transmitter blasting in S9+40/50 on 9350; WINB 9265 even S8/S9 (Glenn Hauser, OK, WOR)

** U S A. 9955, Aug 21 at 1908, JBA carrier, and 1933 at S6; At 1939 into Knoxville remote, S9+20 with CRR. WRMI skedgrid for #3 claims it is off the air between 16 & 21, and System B on ``internet only`` including WOR Friday at 2030, Saturday at 1930. But I don't suppose WOR will reappear then on 9955 (Glenn Hauser, OK, WOR)

** U S A. 7570 & 7730, Aug 23 at 0633, these WRMIs are OFF, while 7780 remains, along with the usual 5 & 9 MHz channels (Glenn Hauser, OK, WOR)

** U S A. 7570, Aug 26 at 0642, this WRMI is on again and as usual much stronger here to the NW than 7730 & 7780 to the NE & SW (Glenn Hauser, OK, WOR)

** U S A. 7505, Aug 23 at 0632, hymn at S9+30, so WRNO is again inexplicably expanding into the night past usual closing circa 0400? Even later, this report: ``7505 WRNO New Orleans LA (p); 1151-1200+, 8/23; EE Caribe-accented religihuxter abruptly cutoff @1157+ into Billy Graham's Hour of Decision. No ToH ID or break. SINPO=4+3+344 (Harold Frodge, Alachua FL)`` (Glenn Hauser, OK, WOR)

** U S A. 7505, Aug 23 at 2245, WRNO is on *much* earlier than usual, gospel huxter in English, S9+10. As in previous report it was also on overnight. Registered with FCC as available: 2200-1600 on 7505, 1600-2200 on 15590, the latter fallow for years, but now? Aug 24 at 0657, WRNO 7505 is OFF again (Glenn Hauser, OK, WOR)

** U S A. 15150, Aug 21 at 1456, WMLK with amateur soloist, DEJOM? with poorly tuned piano accompaniment, singing to the tune of the Israeli national anthem `Hatikvah` in lingo, maybe Hebrew, then a verse I think in English, S9+10/20 direct, the SSOB. I guess a thing for the Messiah. RIP Kol Israel Lagola (Glenn Hauser, OK, WORLD OF

RADIO 2309)

** U S A. 660, Aug 27 at 0400, KTNN ID at ToH plus two others, Tohatchi, which must be KTNN-FM 101.5, and KKNS Corrales, which is 1310 in Albuquerque suburb. Not a bigsig, but anysig at night implies not protecting WFAN (Glenn Hauser, OK, WOR)

** U S A. 780, Thu Aug 21 at 0640 UT, WBBM resumes `StarDate`, after skipping it for two nights (Glenn Hauser, OK, WOR)

** U S A. 790, Aug 22 at 0642 UT, ID in passing as 95.1 WNYZ? vs two C2CAMs QRM. NRC AM Log shows the only 95.1 on 790 is KFY0 Lubbock TX, U4 5/1 kW but also with C2CAM. Geographically, that's likely; and WTFDA FMDB agrees the only relay of 790 on 95.1 is KFY0. Radio-locator shows night pattern favors NNE/SSW (Glenn Hauser, OK, WOR)

** U S A. 1130 kHz, Aug 23 at 0605 UT, stupid sports talk in the clear, must be KWKH Shreveport LA unimpeded by perpetual cheater with music, KLEY Wellington KS. Have they suddenly gone straight with ONE WATT at night? Chat fance. In daytime at 1514 is on air with promotion about carrying local Wellington HSFB starting in September on ``Thunder Country 104.1 and 1130``. I don't recall hearing that slogan before, but I don't listen to it deliberately; I see it is already as such in new NRC AM Log. One watt: why in the world would FCC mandate such a useless power to anystation, especially on an AM `clear` channel? You can hardly expect them not to cheat with day power of a hefty 250 watts available (Glenn Hauser, OK, WOR)

** U S A. 1130, Aug 24 at 0308 UT, C&W music again QRMing KWKH stupid sports talk, as KLEY Wellington KS resumes its usual cheater (Glenn Hauser, OK, WOR)

** U S A. 1180 kHz, Aug 23 at 0607 UT stupid sports talk again where there is normally no such signal; // 1390 KCRC, not checked whether exactly synchronized, so must be the only Fox Sports Radio on 1180 in new NRC AM Log: KZOT Bellevue NE [Omaha] U4 25000/1000, so I daresay this bigsig must be day power. Radio-locator shows day pattern is roughly circular as almost ND; night pattern bulges toward the SW, both from site across the narrow Missouri in IOWA. U4 classification, an ``NRC invention``, means direxional day and night with different patterns. See previous log, Aug 18 at 0637 when they were on Infinity Sports Network; that was UT Monday, this is UT Saturday. Goodbye, R. Martí, hi, and WHAM (Glenn Hauser, OK, WOR)

** U S A. 1180, Aug 24 at 0312 UT, sports talk S9+45, obviously still KZOT Bellevue NE, 25 kW day power. Since making such an accusation, I make a point of catching a definite ID: 0358 FSR promos, just before 0400 about 10 seconds of DEAD AIR during the ID hole, HA! And 0400 back to baseball scores. Finally at 0659.5, KZOT ID, Bellevue-Omaha (Glenn Hauser, OK, WOR)

** U S A. 1180, Aug 25 at 0605 UT, sports talk, no doubt KZOT Bellevue NE still cheating (Glenn Hauser, OK, WOR)

** U S A. 1270, this may have a bearing on my log of KNWC Aug 20 at 0725:
``Applications for STA and other variance notifications received:
1270 KNWC SD Sioux Falls - Applies for STA, U5 5000/575, night pattern is unstable.
(NRC DX News Sept 2, published August 25, 2025)`` (Glenn Hauser, OK, WOR)

** U S A. Sporadic E has been around most of the day with MUF spikes above 100 MHz, but as usual we are mostly either too far or too close to the nexuses = nexi? I'm bandscanning on the caradio UT Saturday

August 23 at 0013-0113 and have a little to show for it:

92.9 at 0053, ad for Wesley Financial Group, Menard's; and ``92-9 Jack FM, - pronounced `yeck``, haha, and soon f/out. WFG is in Franklin TN, specializing in getting out of those dratted timeshares. But WTFDA FMDB shows only two Jacks FMs: preferably CFLT-FM, 100/43 kW in Dartmouth NS, which would have to be double-hop, but settling for: WGTZ 92.9 EATON OH 40.0 kW 168.0 m 39-50-10 84-24-16 6687 Artist/Title JACK FM Top 40ADULT HITS 92.9 JACK-FM 25043 1216 km/756 stmi

93.7 at 0054, ``Super Q 93.7, WQIO``, overcoming KSPI OK: here it is, another Ohioan:
WQIO 93.7 MOUNT VERNON OH 37.0 kW 172.0 m 40-24-18 82-26-20 7FC6
SUPERQ! CURTIS AND THE MORNING CREW ON SUPER Q! Adult Hits ADULT
CONTEMPORARY SUPER Q 93.7 74475 1411 km/877 stmi

Meanwhile at 0100 there is also a ``Hot 93.7``, which I would prefer to be WZMX Hartford CT, but surely KSPI-FM Stillwater, ``the Okie standard`` (Glenn Hauser, Enid OK, WOR)

UNIDENTIFIED. 252 MCW kHz, Aug 27 at 0357 UT, LW beacons can hit only one unusual, 252 kHz; trouble is, dxinfocentre.com shows only two possibilities, in SC and NS; and RNA list shows none anywhere. Now wondering if I were really tuned to 251 AM but I think not (Glenn Hauser, OK, WOR)

UNIDENTIFIED. Trans-Atlantic MWD conditions are starting to improve. JBA carrier search Aug 27 at 0348-0356 UT, first 9/kHz steps on USB, tuning downward one kHz below channels: 1053, 909, 711. Then tuning up in LSB on 9/kHz steps one kHz above channels: 585?, 684, 711, 855, 882, 999, 1044, 1053, 1089, 1305? Most of those are typical of Spain or UK, except 711 could be Cuba or `Morocco`. No sign of Benin on 1476 or 1566. Better results on my indoor N/S shortwire than on the E/W loop (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 1010 kHz, Aug 25 at 0602 UT, mentions 95.1, sports talk. No correlations found on NRC AM Log or WTFDA FM DB (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 1050 kHz, Aug 25 at 0603 UT, mention of phone with AC 605, music. 605 = South Dakota, but no 1050s in SD. Closest would be KLOH Pipestone MN, U4 9380/432 watts, covering part of SD. Dominating now; XEG no longer owns 1050 (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 1290, Aug 27 at 0404, Spanish YL preaching, seems Catholic, on E/W loop but not on N/S wire. By format SS:REL the only fit in NRC AM Log is KRGW Weslaco TX, Radio Vida, U2 5/5 kW, but in wrong direction! R. Vida appears ``evangelical`` rather than anything Catholic on website (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 1320, re my log: ``UNIDENTIFIED. 1320 kHz, Aug 19 at 0651 UT, repeatedly mentioning WLS.com for tickets to something, but not // 890. I guess a show originating there? In case it need to be near Chicago, suspects are: IL, Kankakee WKAN; WI, Wisconsin Rapids WFHR; MI Lansing & Marquette; none in IN ``

``1320 KGDC-AM, Walla Walla, WA carries the same program as 890 WLS during this time. Mason Vye``

``Mason, Tnx for the idea, but altho WLS website was being mentioned on 1320, it was not // 890; and WWA would be quite a stretch from here... What program is that? Glenn``

At 0935 they were // with Red Eye Radio, WLS feed delayed by about two minutes

<http://sagebrushsdr.proxy.kiwisdr.com:8073/?f=1320.00amz10>
<http://kiwisdr.que4.org:8073/?f=890.00amz10>
Mauno Ritola``

New NRC AM Log shows KGDC as the only RER on 1320. OK, but RER originates at WBAP, not WLS, so why plugging WLS? And KGDC is U1 1000/66 watts. Possibly a chase of wild geese, if I misunderstood that website, as WLS.com is NOT WLS radio, but Williams Lawn Seed Company! in Maryville MO. The radio station is wlsam.com (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 1360.28, Aug 25 at 0709 UT, JBA carrier hetting 1360.00. Nothing so far off in mwoffsets (Glenn Hauser, OK, WOR)

UNIDENTIFIED. Re carrier I had on 1360.28, Martin Foltz replies: ``I hear a big jet [het] on 1360 here in Sarasota FL. Martin`` - Well, no Cubans are listed on 1360; one each in Costa Rica, Guatemala, Mexico. However, excellent new free IRCA Mexican Log shows three CPs on 1360:

https://www.ircaonline.org/editor_upload/File/2025-26_IRCA_Mexican_Log.pdf
(Glenn Hauser, OK, WOR)

UNIDENTIFIED. 1360.29 approx., Aug 27 at 0405 UT, JBA carrier hetting 1360, like previously on 1360.28 (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 1431 & 1469 kHz, Aug 22 at 0541, two JBA carriers hetting 1430 & 1470, presumed matching spurs out of some 1450 station. NO replies received to my request for chex for these elsewhere (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 1431 & 1469, Aug 24 at 0641 UT, no longer detecting these JBA carriers believed to be spurs from something on 1450; will keep checking (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 7235, Aug 25 at 0557, mystery JBA carrier still here, slightly stronger than 7260 Vanuatu (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 9540, Aug 22 at 0539, African? song, S8/S9, 00FS0B. Nothing in Aoki at this hour, but EiBi shows both Afriky FM, Béchar, ALGERIA at 03-06; AND R. Ndarason Intl for TCHAD at 05-06 via Woofferton UK (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 9236.0, Aug 26 at 0635 open carrier with JBA clix roughly once per second, and detectable out to 9220/9246. What is this? Another report:

``3-Second "Click" Signal --- Hi Glenn, I just wanted to tell you that last night I listened for the mystery "clicker" on the 31 meter band. Sure enough, there he was. His signal was quite wide. Far too wide. I was hearing him across a span of greater than 400 KHz. I did notice that the period of the signal varied a bit. Only slightly, but perceivable. Probably not any kind of radar. Take care, my friend. I am a faithful listener to your podcasts. John Lutz, N9JL, EN51vm``
Shorewood IL, Aug 24

``John, Good. Did you note the frequency range, top to bottom, or a `center` frequency of open carrier like I have been getting? Glenn``

``I started listening at 9936 kHz, and (randomly) decided to tune lower in the band. I was still hearing it at 9350 KHz. At 9300 KHz it was no longer audible. Thinking about it, the signal spanned over 600 KHz. Maybe a lot more. I didn't attempt to find the dropout point on the high side, but it was definitely audible above 9,936 KHz. I suppose it could be a radar set. It seems that 30-31 meters is becoming a popular place for OTH radars. 🙄

I listened for The Clicker again tonight {UT Aug 25}. No joy. But band conditions seemed considerably better than last night.`` (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 9478.9 LSB, Aug 27 at 0629, intermittent 2-way JBA in unknown language (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 15016 USB, August 22 at 1527, ``Footbush? 07, I say again: MPKN65RCT57IYSKKJ7DADYB4KR7LSB, this is Electric, out`` USAF crypto exercise fonetikally (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 21725, Aug 21 at 1900, JBA carrier, but nothing ever scheduled in HFCC, EiBi or Aoki. I get various birdies from local equipment at various spots in vacant bands, but since this one is on exactly 21725.0, I suspect it be real SW transmission (Glenn Hauser, OK, WOR)
